

Analysis update: May 31, 2022

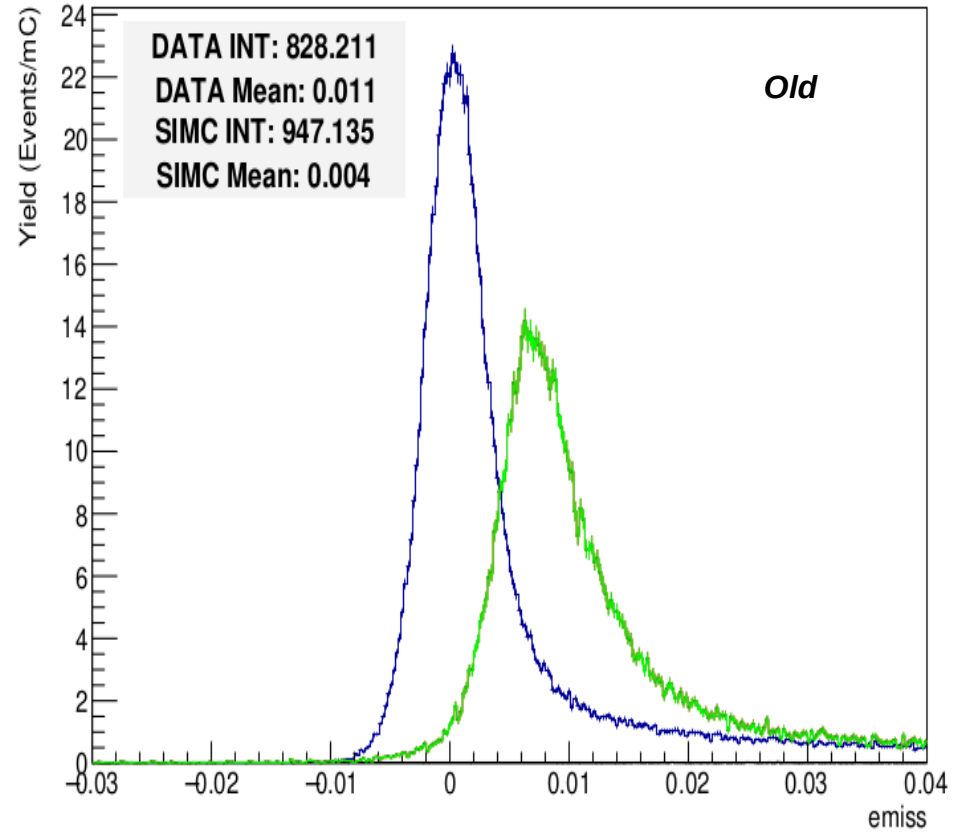

- 'Heepcheck' program (Heep coin updated):
 - 3.9 GeV KaonLT

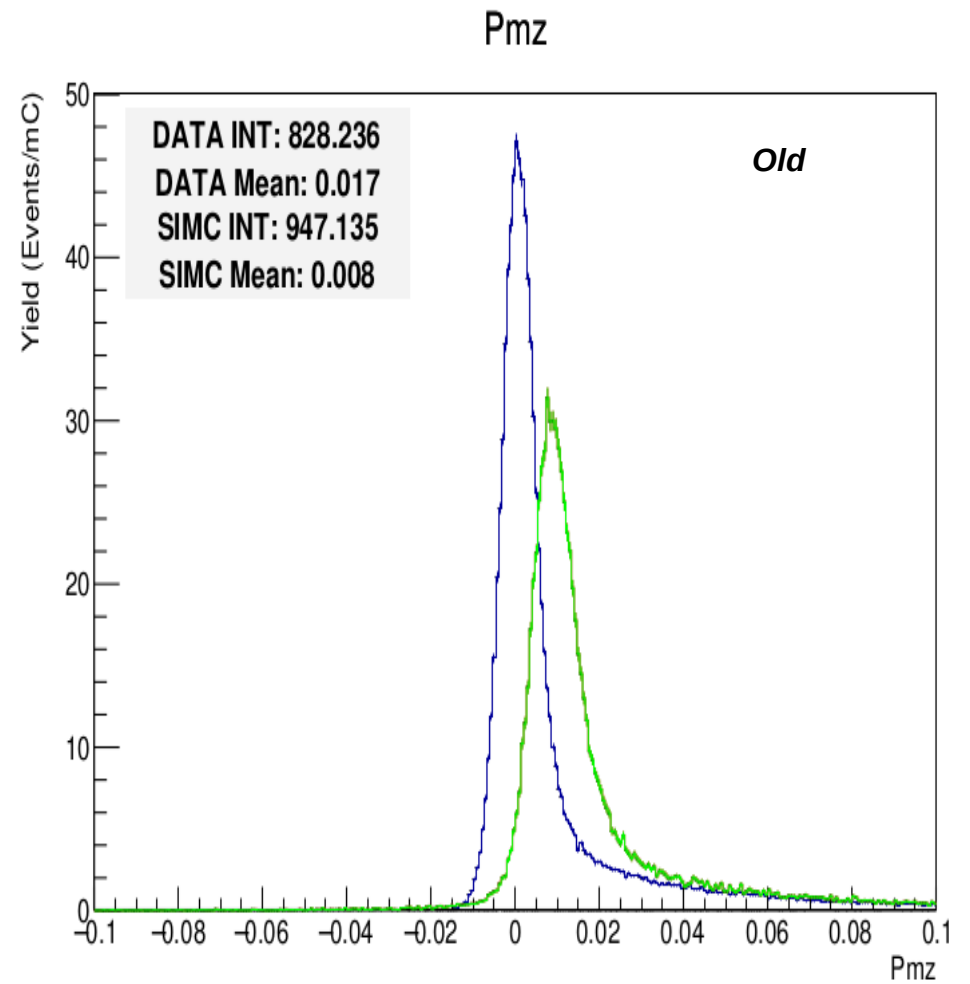

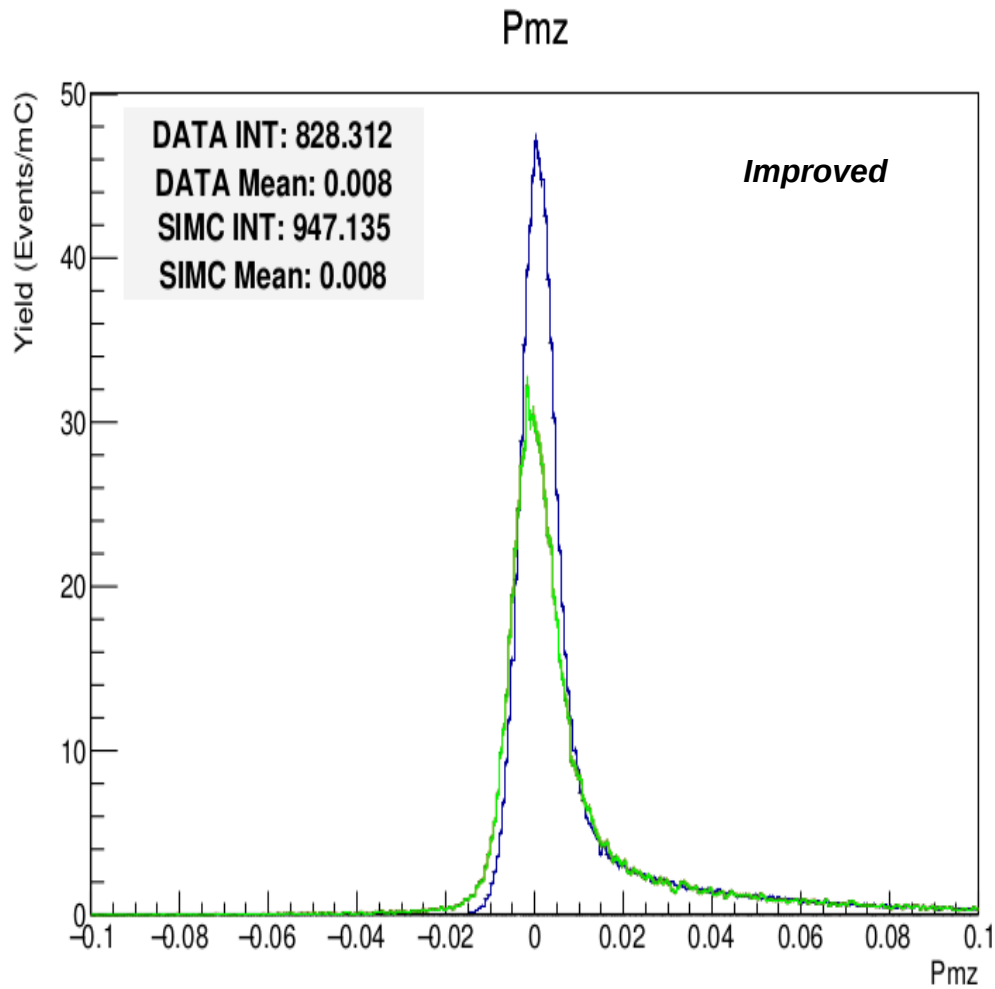

emiss

emiss

Next Plan:

- Working to complete the **4.9 GeV** KaonLT and **low Q^2** PionLT (3 beam energy) data.
- The experimental data are not being corrected to detector inefficiency and other factors. I will need to do that.
