

SHMS Hodo Efficiency

Mr. Muhammad Junaid
Ph.D. Student
Department of Physics,
University of Regina, Canada

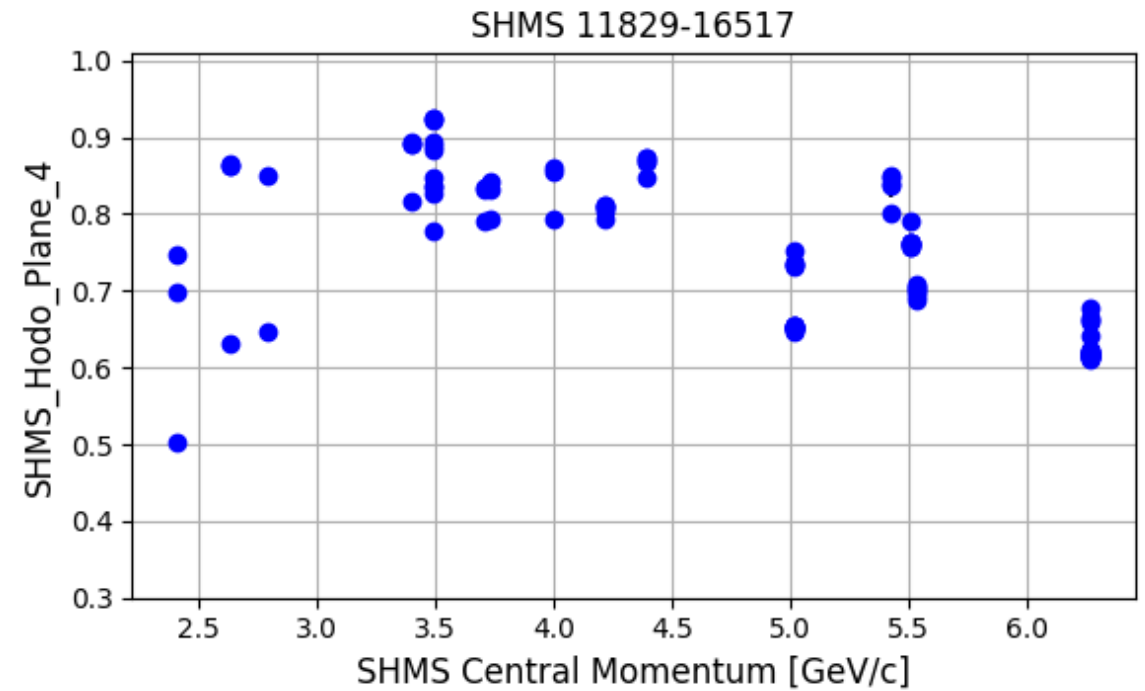

SHMS Hodo $3/4$ Efficiency

PionLT Experiment

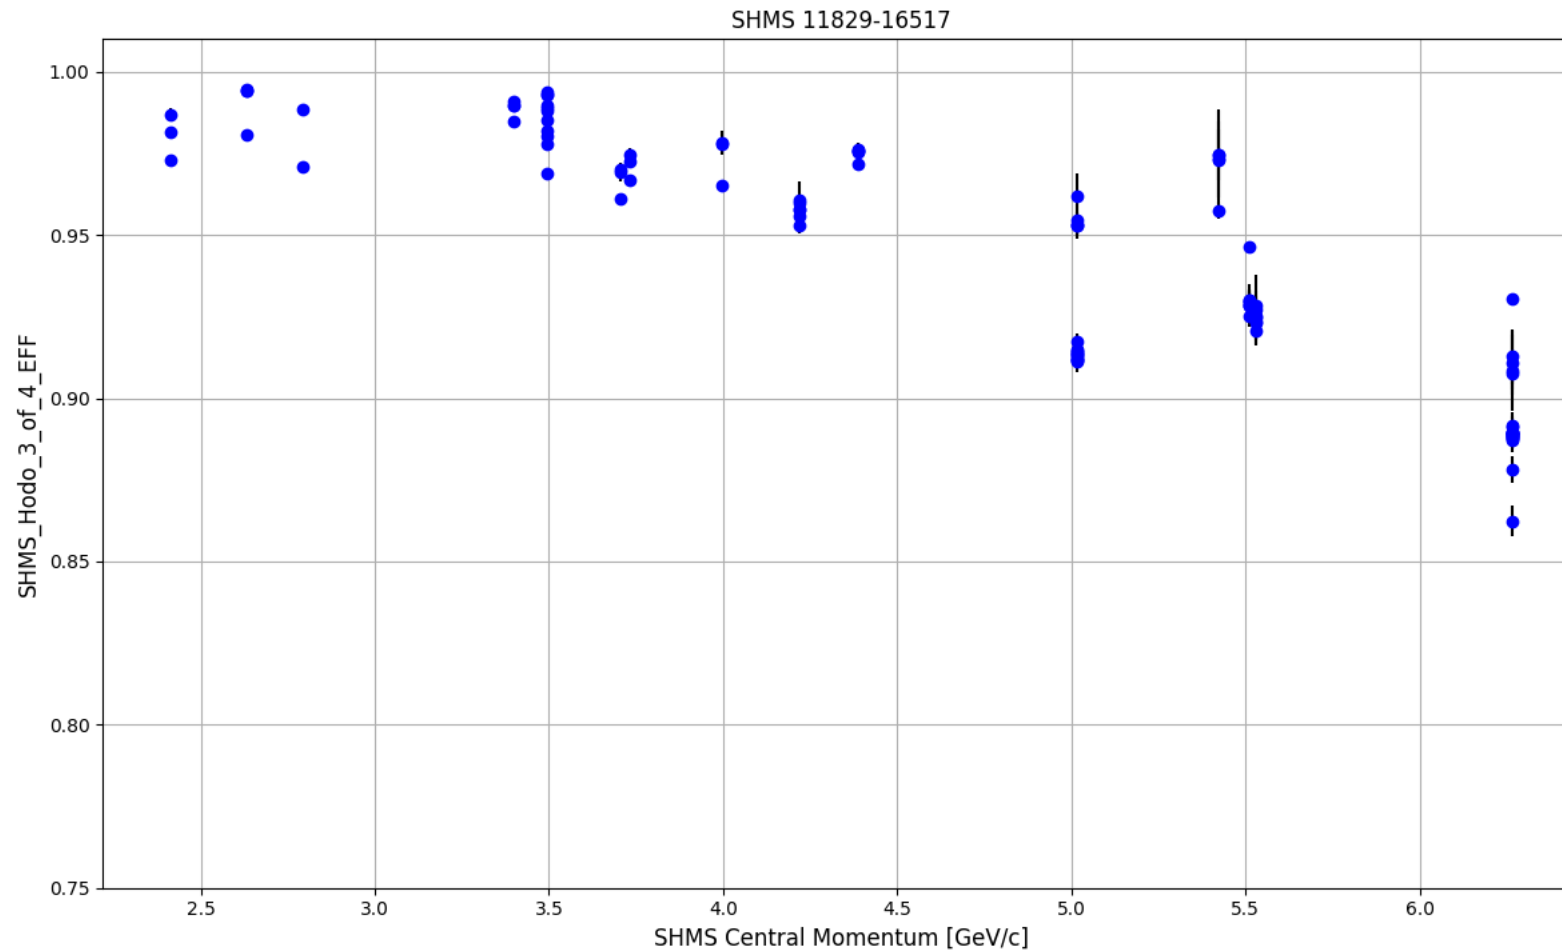

SHMS Hodo $3/4$ Efficiency

PionLT Experiment

SHMS Hodo $3/4$ Efficiency

PionLT Experiment

- In KaonLT;

```
; tof and you figured out good values  
ptof_tolerance = 2.0
```

```
; tof and you figured out good values  
ptof_tolerance = 5.0
```

- In PionLT, we are using “ptof_tolerance = 10” (set by carlos).

```
; tof and you figured out good values  
;ptof_tolerance = 10.0  
ptof_tolerance = 12.0
```

- Increased it to “ptof_tolerance = 15” and results got change. But we need to use 2 (from Mark).
