Using Analyzer

Add file to analyzer folder

- After running config in rcgui file is saved in Compton data folder. To access this go to compton@compton computer (compton@camsonne2-lpt works). You can check your files in jeviodmp if you open the data folder.
- In terminal type "scp comptonc_RUNNUMBER.evio.0 daq@eel122daq:matthewt/data"

Decode file into a ROOT file

- In terminal type "ssh daq@eel122daq"
- "cd matthewt"
- "analyzer"
- ".L decoderc.C"
- "decoderVETROC(run number)"
