Support # 141 (In Progress): Simulation Digitized Output and Analysis

Tracking simulation for neutron FFs

05/30/2017 10:27 AM - Seamus Riordan

Status:	In Progress	Start date:	01/01/2017
Priority:	Normal	Due date:	12/31/2017
Assignee:		% Done:	80%
Category:		Estimated time:	0.00 hour
Target version:		Spent time:	0.00 hour
Responsible:			
Description			

History

#2 - 07/18/2018 11:37 PM - Eric Fuchey

Lots of work from Danning:

- GEM clustering analysis improvement;
- tracking improvement, with calorimeter information;
- started optics reconstruction with reconstructed tracks.
Estimated 80-90% done

#3 - 07/19/2018 11:22 AM - Eric Fuchey

- % Done changed from 30 to 80

Repost with progress bar modifications

Lots of work from Danning:

GEM clustering analysis improvement;
tracking improvement, with calorimeter information;
started optics reconstruction with reconstructed tracks.
Estimated 80-90% done
