

Hall A Analyzer - Feature #68

dbconvert utility

05/18/2017 03:22 PM - Ole Hansen

Status:	New	Start date:	06/22/2017
Priority:	Normal	Due date:	
Assignee:	Ole Hansen	% Done:	0%
Category:		Estimated time:	144.00 hours
Target version:	1.7	Spent time:	0.00 hour
Responsible:			

Description

The dbconvert utility is still missing a number of features:

- Read individual input files instead of whole directories
- Select a list of detector name to convert, allowing wildcards
- Dto, but for detector types
- Assign detector types to detector names on the fly
- Dry-run to check for errors, list what would be done
- Copying comments from source files to target files

See subtasks for details.

Subtasks:

Feature # 69: dbconvert: read individual input files	New
Feature # 70: dbconvert: allow selection of detector names to convert	New
Feature # 71: dbconvert: allow selection of detector types to convert	New
Feature # 72: dbconvert: assign detector names to types on the fly	New
Feature # 73: dbconvert: dry-run feature	New
Feature # 74: dbconvert: copy comments from source to target files	New
Bug # 178: dbconvert should print failure summary	New
Feature # 75: dbconvert: support conversion date ranges	New

History

#1 - 05/18/2017 03:54 PM - Ole Hansen

- Target version set to 1.6

#2 - 05/19/2017 02:40 PM - Ole Hansen

- Subject changed from *Missing features in dbconvert* to *dbconvert utility*

#3 - 11/28/2017 12:27 PM - Ole Hansen

- Target version changed from 1.6 to 1.7
